SmartFaktura MVP — Milestones & Pricing

USD 5,000 fixed (all 5 milestones). Payment per milestone on your sign-off. Start: 9 Feb 2026. Completion: 20 Mar 2026.

#	Milestone	Price	By
1	Authentication & Tenancy	$1,000	15 Feb 2026
2	Invoicing Core & Data	$1,500	1 Mar 2026
3	Output & Lifecycle (PDF, Email, Status)	$1,500	8 Mar 2026
4	Dashboard & Auditability	$500	15 Mar 2026
5	Hardening & Handover	$500	20 Mar 2026
	Total	**$5,000**	

Warranty: 2 months from final milestone acceptance (bugs/fixes to keep MVP working as agreed, no extra charge).

1 — Authentication & Tenancy · $1,000 · 15 Feb 2026

Scope:

- Registration and login (email + password); logout and session handling
- One company per user (created on first signup); data isolation per company
- Single role (Owner only); protected routes and 401/403
- Secure sessions (httpOnly, secure, SameSite; CORS)
- Login/register screens; redirect to login when not signed in

Acceptance criteria:

- Users can register and log in
- Data isolated per company; no cross-company access
- Session secure; flow: register → company created → protected access → logout → unauthorised

2 — Invoicing Core & Data · $1,500 · 1 Mar 2026

Scope:

- Invoices: id, number, date, due date; company and customer; status (draft/sent/paid)
- Create/edit draft invoices; line items (description, quantity, unit price; free-text, no product catalog); auto line and invoice totals
- VAT: invoice-level only (one % per invoice); correct subtotal, VAT, total
- Invoice numbers: auto, unique per company, sequential; not editable after sent
- Invoice list (filter by status), detail view; company-scoped
- Customers: CRUD — name, email, address, country; company-scoped; selectable on invoices

Acceptance criteria:

- Invoices created and stored; only drafts editable
- Status flow and totals/VAT correct
- Customers manageable and selectable
- All data company-isolated

---

3 — Output & Lifecycle · $1,500 · 8 Mar 2026

Scope:

- PDF export: invoice PDF (company, customer, number, date, lines, subtotal, VAT, total); consistent layout; manual download
- Email: send invoice to customer with PDF; basic subject/body; errors handled; status → sent on success
- Status flow: Draft → Sent → Paid → Cancelled; valid transitions only; visible in UI
- Activity log: created, sent, status changed (timestamps)

Acceptance criteria:

- PDF export and email send work
- Status updates correctly
- Activity log records created, sent, status change

---

4 — Dashboard & Auditability · $500 · 15 Mar 2026

Scope:

- Dashboard: invoice totals by status (draft/sent/paid), company only
- Activity log: create, update, status change with timestamp and user

- Audit trail: read-only, immutable, company-scoped; minimal retention (e.g. last 50 events or 30 days)

Acceptance criteria:

- Totals by status visible
- Key actions logged; audit immutable and company-scoped

---

5 — Hardening & Handover · $500 · 20 Mar 2026

Scope:

- Owner role enforced; unauthorised actions blocked; company isolation
- Security: input validation, access checks; no critical issues
- Bug fixes; no critical bugs
- E2E: core flow (create → edit → PDF → email → status)
- README and setup
- **Production deployment (required for acceptance):** Correct deployment (e.g. Vercel): routing and domain fixed so `/` , `/app` , `/dashboard` , `/login` , `/api` resolve correctly; no placeholder or wrong pages; product usable on final public domain(s)

Acceptance criteria:

- No critical bugs; core flow E2E tested
- Docs updated
- Production live on final domain(s); key paths working; no placeholders
- Scope locked; ready for validation

Payment due on confirmation that each milestone's sign-off criteria are met. USD. 2-month warranty included. New work after MVP at $30/hr (e.g. Products catalog, per-line VAT, Member role).
